## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 3 are rejected under 35 U.S.C. 102(e) as being anticipated by Melton et al. Applicant claims a handle a cavity which conceals a trimmer wand and a shaving head. Melton shows a concealed trimmer 132 which resides in a body cavity of the handle of the shaver.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4, 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over McIntyre et al in view of Branchinelli et al. McIntyre shows the claimed invention except that the secondary shaver 131 may not be smaller than the shave on the end of the handle 112. Note that the straight razor may be concealed in the handle and is connected to an actuator 143 that moves in a slot 145. Branchinelli shows the concept of using a large cartridge for regular shaving and a small shaver for trimming. The obvious advantage is that the small shaver is easier to use as a trimmer. Obviously one of ordinary skill in the art would have made the secondary straight razor of McIntyre smaller than the cartridge to aid in trimming.

***Allowable Subject Matter***

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
